

# Project Management

## **ABOUT THIS COURSE**

In today's highly competitive world, organizations are using project management to implement strategy and deliver value to their stakeholders. This course provides an overview of the five process groups and 10 knowledge areas of project management, and how to use this information to successfully manage projects. The learner will come away knowing the fundamental practices needed to get results and achieve excellence in project management.

## **LEARNING OUTCOMES**

- Design a project charter that includes all necessary elements.
- Create a project plan that includes the scope and work breakdown structure.
- Develop the project's plan and schedule.
- Estimate all costs and develop a cost baseline.

## **APPROXIMATE COURSE HOURS**

- 39 hours (in class or online)
